

MYTH - CHILD SEXUAL ABUSERS ONLY ABUSE ONCE. TRUTH - EVIDENCE SHOWS AN ABUSER CAN ABUSE BETWEEN 100 - 150 TIMES THROUGHOUT THEIR LIFE, THEREFORE IT IS VITAL THEY ARE CAUGHT AND CONVICTED BEFORE MORE INNOCENT CHILDREN ARE ABUSED

Children can't talk about sexual abuse, so we must. Over 90% of abuse is carried out by someone you know or known to the family. If you're worried about someone's behaviour with a child, or secretive use of chat rooms, social media platforms or illegal websites, the sooner you act the sooner you can prevent abuse from happening. If you suspect that someone you know may be sexually abusing a child, you must contact the police or speak confidentially to someone on the Helplines below. To learn more about child sexual abuse, and abuse prevention education visit our websites.
